I bought this book for 4 of my ESL students. They were given as their Christmas gifts from me. To my surprise, they read the book over the holidays and then went to see the movie (in English). It was good to know that giving them something in their native language led them to immerse themselves into English without lesson plans or homework!

Se puede decir que esta es parte de la prehistoria del Señor de los Anillos, en donde se narra las aventuras de Bilbo y los enanos para encontrar el tesoro resguardado por un dragón. Aquí se detalla el encuentro que tuvo Bilbo con Gollum (todas las adivinanzas incluidas), en el cual se apodera del anillo. El lenguaje empleado por Tolkien es más fluido (pareciera como si fuese dirigido a un público un poco más infantil).

This will be my second copy of this book, the first one literally disintegrated on me before I was halfway through with it! The glue used for the binding didn't hold up real well. Pages become separated from the spine individually and in chunks. El pegamento no sirve bien y las paginas estÃ¡n volando en el aire. A veces una pagina a la vez y otras veces capitulos completas se cayÃ³. Paginas en todas partes. Que lastima.

Not as good as in English, but good enough to learn the vocabulary so I can tell the story to my granddaughter for the next few years (she is just 4.5) in Spanish. I never realize that Baggins was related to bags, until "Bolson" made me scratch my head and then say OH!. Love reading it, and am finishing it at a rapid pace. Will need to re-read it like I did the English Version when my daughter was the same age.

The translations were fairly accurate, save a couple translations. The illustrations were superb, however, and I would recommend this book to any Lord of the Rings fan that wants to gain knowledge in Spanish! (I wouldn't recommend this book to any Spanish Second Language people that have not read this book in English first.)

La verdad habÃ­a leido los libros de la saga del seÃ±or de los anillos pero debo admitir que me ha gustado mucho mÃ¡s la manera en que se relata el Hobbit. Totalmente lo recomiendo pues es muy entretenido.

As a non-native speaker who has never read it in English, it's hard for me to judge the translation but I enjoyed the book a great deal. So much so in fact that I bought El Senor de los Anillos trilogy.

I wanted the novel not the booklet based on the movie. was superb, but if you look at the book cover one can not read the print at the top of the cover wich states based on the move. I was going to return the book but the postage was more than what the book cost.
