Synopsis

Discover the Lives of the Women that Forever Changed the Course of History !! This Book Contains the Fundamental History, Early Influences, Life Changing Events, & Lasting Impact of Historical Figures such as Eve, Cleopatra, Isabel the Catholic, Marie Curie, Winnie Mandela, Benazir Bhutto, Juana Azurduy and Many Others! The 21st century stands witness to the achievements of some of the most influential women in the world. And yet, no matter how today's movers and shakers stand in contemporary rankings, how can we compare them to the giants of the past, the women who took history in their bare hands and bent it to their will? Whether they strode upon the stages of military power or at the altars of religious belief, they have left their marks on civilization. Eva, Juana Azurduy, Isabel the Catholic, Marie Curie, Winnie Mandela & Benazir Bhutto were women whose lives changed the course of history. They would have been remarkable in any era in which they were born. But by living when they did, each defined the times in which they lived. Their actions transformed the imprint of their countries and the world. Eve, the prototype for the female gender, got things off to a bad start. Condemned by the male power structure for millennia following Eve's surrender to temptation, the fair sex received generations of unfair treatment based upon Eve's error in judgment. The fact that Adam was just as guilty managed to get a pass as authority was deemed the destiny of males because women had proven themselves weak and flawed. Women were expected to know their place, to accept their subjugation to the husbands and fathers who were given authority over them, and to obey without question. When, throughout history, women emerged from obscurity to take their place in government, science, struggles for liberty, the arts, or other arenas where they were expected to remain spectators and not performers, they were judged by a set of standards that regarded their gender as more important than their achievements. When they succeeded, as Cleopatra did in defending her realm, Isabella the Catholic did in ruling Castile, or Victoria did in reigning over an empire, they challenged the preconceived notions that believed a male would have done a better job. When they were trailblazers, as Marie Curie was in science, Mary Wollstonecraft in medicine, Benazir Bhutto and Hillary Rodham Clinton in politics, Winnie Mandela in activism, and Juana Azurduy in battle, they fought two battles: one to achieve their goals, the other against a power structure that would value a man's accomplishments over a woman's. They endured condemnation, hostility, scorn, poverty, violence, and even death in their crusades! The body of knowledge around this subject is so extensive that Dominique Atkinson has skillfully compressed thousands of books, scriptures and teachings of these historical figures into this easy to read book. Of each of these Great Women, you will learn who they were, where they came from, who influenced them, the fundamental turning

points in their lives, and what where their lasting contributions to the world. Download your copy today!

Customer Reviews

I appreciated the author of this book for recognizing the empowerment of women since from the beginning. From the book itself showed the importance of women in our society, not just us but women as well played a significant role. Among those women in the past who change the course of history were Eva, Juana Azurduy, Isabel the Catholic, Marie Curie, Winnie Mandela & Benazir Bhutto. They were all remarkable in their respective era they were born. Their actions transformed the imprint of their countries and the world. Such great information we can get by just reading this book. Reading this give me the chance to appreciate the contribution of women. They really deserved recognition until this present times. Such a nice read, recommend it to everyone.

If there were men who ruled in our ancient history, of course there are also powerful women who ruled different worlds and left a big reflection of power and strength of today's women. In the past,

the women were just slaves and are not allowed to go out and not allowed to talk with other guys but when these women step out and let their voices be heard that is the time that the world changed. They showed power and greatness in ruling an empire that women are more responsible in dealing with different calamities. This book explained the intriguing but most amazing history of the most powerful women in the history.

This book is a very informative book, I find it very educative. It contains names of some women I know about (but do not know their story) and names of women I have never heard about. They had really interesting stories and one can learn a lot from them. This book contains a brief but yet, important history of these women that affected the world in ways even they never imagined. This is a very educative book and I am looking to get the male version of it next, which was introduced in the last pages of the book.

Women never seem to get enough recognition. It is obvious that men have been the dominate writers of the history books. Considering the heavy gender discrimination women have faced through the ages, I mean let's look at poor Eve, it is refreshing to read this book. Many women made amazing contributions to the world despite culture and society's attempts to put them in the background. In my opinion these accomplishments are even more noteworthy seeing how they were already starting with a disadvantage. Kudos to the author!

Great book! Those women mentioned in this book are very inspiring and deserving to be recognized in their own right. They were so brave to opposed those powerful men in their times, especially those era wherein the society were dominated by male and the women were not as important as men. I salute those women. I had a great time reading this book. 5 star for it.
