Customer Reviews

Despite some typos in the old edition, this is the handiest little book I can find with two-way translation and phonetics for Spanish-speakers as well as English--in the simple phrases--as well as the double dictionaries.

I went to Tijuana with this book and spent two months working and conversing with the folks there. this book covers items and verbs not covered in typical spanish lessons. It translates both ways and tells you how to pronounce the words with phonetic spellings. Helpful for the Mexicans trying English, too.I finally left it with a man who was learning English down there. I highly recommend it and just re-bought two of them.
