Synopsis

Today, the housing situation in Nepal, especially for the urban poor, remains far from adequate. Indeed, urban dwellers in Nepal have been finding it increasingly difficult to afford housing due to rapid price rises in land. Such is the challenge that the Government of Nepal approached UN-HABITAT to help it formulate its new national housing policy. This publication, the Nepal Housing Sector Profile, is a comprehensive, in-depth outcome of that request.

Book Information

Series: Housing Sector Profile
